INTRODUCTION

The 1971 *British Columbia Directory* is a consolidation of the *British Columbia Manufacturers' Directory* and the *British Columbia Wholesale Directory*, previously published separately. Its purpose is to provide a simplified ready reference for interested individuals and concerns at home and abroad.

The new edition lists manufacturers, wholesalers, importers, and exporters in British Columbia and indicates products manufactured or traded.

The first section lists the firms in alphabetical order, giving main place of business or head office addresses, major products, and a code indicating size of employment.

The second section contains product classifications, showing all firms connected with the products coded as to manufacturer, wholesaler, exporter, or importer.

Primary information was compiled with the aid of questionnaires cross-checked and supplemented with data from secondary sources. Appreciation is extended to the many firms that provided much of the data for use in this publication.

PART II

AN ALPHABETICAL LIST OF PRODUCTS MANUFACTURED IN BRITISH COLUMBIA

Detailed company addresses are listed in the buff pages of this directory.

In order that articles of a similar nature will appear close to one another in the Directory, the word of the heading considered most important has been placed first; i.e., furniture, household, bedroom; fish, canned, salmon; castings, brass or bronze. In cases where the inversion seems misplaced, the headings have been listed in their customary sequence. Precise commodity descriptions are used wherever possible.
